

Tributary SYSTEMS, INC

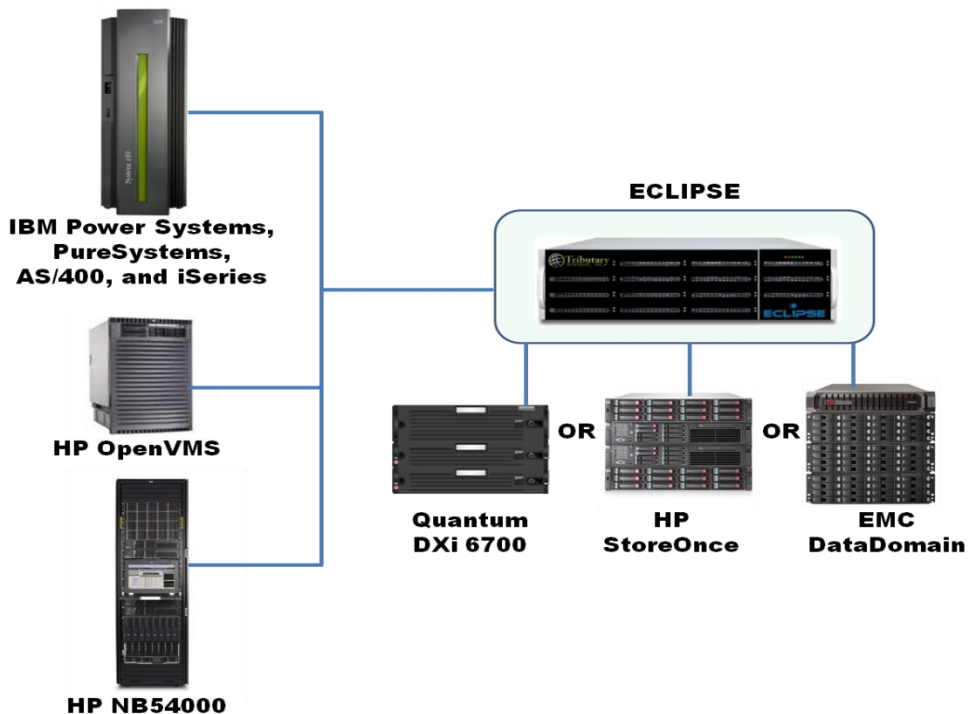

ECLIPSE

A low cost gateway appliance for attaching enterprise storage systems to proprietary computing platforms

Tributary Systems introduces the new ECLIPSE low cost gateway appliance. ECLIPSE is a zero cache solution designed as a translation/compatibility platform to attach industry standard enterprise storage infrastructure to proprietary and semi-proprietary computing platforms. ECLIPSE is specifically designed to attach the Quantum® DXi, HP StoreOnce, EMC DataDomain, and other de-duplication storage solutions to the IBM® AS/400® and Power Systems™ (running i/OS, AIX® and Linux®) IBM PureSystems™ (running i/OS, Windows®, AIX and Linux), HP OpenVMS and HP NonStop server environments.

LOW COST GATEWAY APPLIANCE

ECLIPSE at a Glance:

Virtual Slot Capacity per Library Up to 30,000

Virtual Drive Capacity per Library Up to 50

Virtual Libraries Up to 100

SERVER NODE:

Interfaces
Four 8 Gbps FC front-end ports
Four 8 Gbps FC back-end ports
1 Gbps Ethernet for iSCSI
1 Gbps Ethernet for management

Emulations
IBM 3584, HP E-Series, STK L700, ACSLS, proprietary
LTO-1, LTO-3, LTO-4, 3592, 9940, T10000, N1525

Physical Specs
Height: 5.2" (132mm) (rack mount 3U)
Width: 17.2" (437mm)
Depth: 25.5" (648mm)
Weight: 72 lbs.

Operating Environment
Temperature: 10-35 C (60-95 F)
Humidity: 8-90% non-condensing

Power
Redundant 1200W high-efficiency power supplies
1000W Output @ 100-140V, 11.5-8A, 50-60Hz
1200W Output @ 180-240V, 8-5.5A, 50-60Hz

Tributary Systems, Inc. is a technology solution provider to enterprise computing customers. Tributary develops and sells data protection, backup storage, virtualization, site-to-site replication and disaster recovery solutions. Tributary is an acknowledged global leader in providing backup storage and data protection solutions for fault-tolerant, high availability, enterprise computing environments.

Tributary was founded in 1990 and is a Texas based company with its headquarters, development, integration, and test facilities in Bedford, Texas and software development and test facility in Austin, Texas.

Through its channels and direct sales organization, Tributary has served customers worldwide, predominantly in the banking, financial services, retail, telecom and healthcare industries. Tributary is a HP business partner and OEM supplier, IBM OEM Partner (iOEM), Solution Reseller (ISR) and Business Partner, Quantum® Value-Added Reseller (VAR), and Oracle® OEM partner.
