

IBM Certifies Tributary Storage Director “Ready for Tivoli” Storage Manager

COMMON, Austin, TX, April 6, 2013 – Tributary Systems, Inc. announced today at the annual COMMON User Group conference in Austin that its Storage Director® solution has been certified by IBM as “Ready for IBM Tivoli Software.” Tributary will be showing Storage Director in Booth 303 at the COMMON Expo this week.

The “Ready for Tivoli Software” designation means that Tributary’s Storage Director enterprise backup virtualization and consolidation solution has been validated by IBM to be compatible with IBM Tivoli Storage Management solutions.

About Storage Director from Tributary Systems

Today there is no “one size fits all” data protection solution. The new normal is “Defense in Depth”: combining multiple data protection techniques to assure cost effective data availability and integrity. The key challenge is managing all the moving parts. This challenge is addressed by Storage Director which integrates tape backup, disk mirroring and replication, continuous data protection (CDP) and high availability techniques into a streamlined storage management system. For an overview of storage management trends, download storage guru [Jon Toigo’s white paper](#).

Tributary Systems, Inc. (www.tributary.com) delivers data protection with vision. Customers include *Fortune 20*, *Fortune 500* and *Fortune Global 1000* companies as well as small and middle market companies in banking, financial services, retail, telecommunications and healthcare. Tributary Systems is an **IBM OEM, Solutions Integrator and z Development Partner**.
